SUMMARY

Aspiring Full Stack Developer with experience in Python, Django, Django REST Framework (DRF), JavaScript, React, HTML, CSS, and Bootstrap. Skilled in building scalable web applications and RESTful APIs with clean, efficient code. Passionate about learning and solving real-world problems through technology. Seeking a role to apply full-stack skills, contribute to dynamic teams, and grow in a collaborative environment.

TECHNICAL SKILLS

Programming Languages: Python, JavaScript, HTML5, CSS3

Backend Development: Django, Django REST Framework (DRF), RESTful API

Frontend Development: React, Vite, Bootstrap, npm

Databases/Tools: SQL, SQLite, Git, GitHub, VS Code, Postman

PROJECTS

Social Media Web Application

Nov 2025
Python, Django

- Developed a full-stack social media web application with user registration, login, and secure authentication.
- Designed a responsive frontend using HTML, CSS, and Bootstrap for a smooth user experience.
- Managed static and media files efficiently and followed MVT architecture to maintain clean project structure.
- Technologies: Django, Python, HTML, CSS, Bootstrap, SQLite

Role-Based Task and Project Management System

Jan 2026
Django REST Framework, JWT Authentication

- Developed a full-stack project and task management system with role-based access control (Admin, Manager, Employee).
- Implemented JWT-based authentication and authorization using Django REST Framework with secure permission handling.
- Designed and built RESTful APIs for users, projects, and tasks following clean API practices.
- Created a responsive React (Vite) frontend with protected routes, state management, and backend integration using Axios.

EXPERIENCE

Python FullStack Intern

DataSpark Analytics

June–Dec 2025
Calicut, India

- Gained hands-on experience in front-end and back-end web development using modern technologies
- Learned to build dynamic, responsive websites and web applications
- Acquired strong programming skills in Python, including object-oriented programming and data handling
- Developed web applications using Django and Bootstrap frameworks

EDUCATION

College Of Applied Science(IHRD) –University of Calicut

BSc Computer Science

August 2022 – March 2025
Vattamkulam, India

CERTIFICATIONS

National Council for Technology and Training -Certified in full-stack web application development using Python, Django, HTML, CSS, Bootstrap, JavaScript, and SQL(Completed Dec 2025)
